## **ZIPAIR Expands New Service between Mineta San José International Airport and Tokyo-Narita**

*Flights begin Dec. 12 and increase to five weekly starting Jan. 11*

**San José, Calif.**—Before its new nonstop service between Mineta San José International Airport (SJC) and Tokyo Narita International Airport (NRT) has even begun, ZIPAIR Tokyo announced it will increase frequency on the new route to five weekly flights beginning Jan. 11, 2023. Initial service begins on Dec. 12, 2022, with three weekly flights.

“ZIPAIR’s new, low-cost service connecting the capitals of Silicon Valley and Japan has already proved to be popular among travelers on both sides of the Pacific,” said **SJC Director of Aviation John Aitken**. “While we knew ZIPAIR planned to grow its Bay Area gateway in San José, the timing of this expansion reflects the strength of our market and the resurging demand for transpacific travel.”

ZIPAIR Tokyo, a wholly owned subsidiary of Japan Airlines (JAL), offers passengers a fully customizable travel experience. The airline operates a modern fleet of Boeing 787 aircraft, with 18 full-flat seats and 272 standard seats. All passengers enjoy complimentary inflight Wi-Fi, as well as inflight food, beverages and shopping available for purchase through a unique, contactless mobile ordering system.

Initially, ZIPAIR will fly the San José – Tokyo route on Mondays, Thursdays and Saturdays. From Jan. 11, it will add service on Wednesdays and Sundays. As previously announced, ZIPAIR intends to further expand its schedule to offer daily service later in 2023.

Promotional launch fares\* are still available for the carrier's new San José service. Flight schedules are subject to relevant government approvals. Flight times, fares and reservations for the new flights are now available at [zipair.net](https://zipair.net).

*\* Inaugural airfares are subject to availability for purchase between Sept. 16, 2022, and Nov. 30, 2022, for travel between Dec. 12, 2022, and March 25, 2023, and are one way, per Standard Value Seat, inclusive of taxes and applicable airport fees. Additional fees apply for optional services, including inflight meals, checked baggage and seat selection.*

## **SJC: Transforming How Silicon Valley Travels**

Mineta San José International Airport (SJC) is Silicon Valley's airport, a self-supporting enterprise owned and operated by the City of San José. For more airport information, visit [flysanjose.com](https://flysanjose.com). Connect with SJC on social media at [flysanjose.com/follow](https://flysanjose.com/follow).

## **About ZIPAIR Tokyo**

Established in 2018 as a wholly owned subsidiary of Japan Airlines, ZIPAIR features a fully customizable travel experience based on an LCC business model. Offering complimentary Wi-Fi for all classes of travel, the carrier operates the Boeing 787-8 Dreamliner configured in a 290-seat layout. One of the few international airlines to provide a contactless inflight experience, ZIPAIR's self-ordering payment system is accessible to order meals and goods through a personal smartphone or tablet. Based out of Tokyo Narita, ZIPAIR currently operates to 5 international destinations, including Bangkok, Seoul, Honolulu, Singapore, and Los Angeles.
